

Land Opportunities

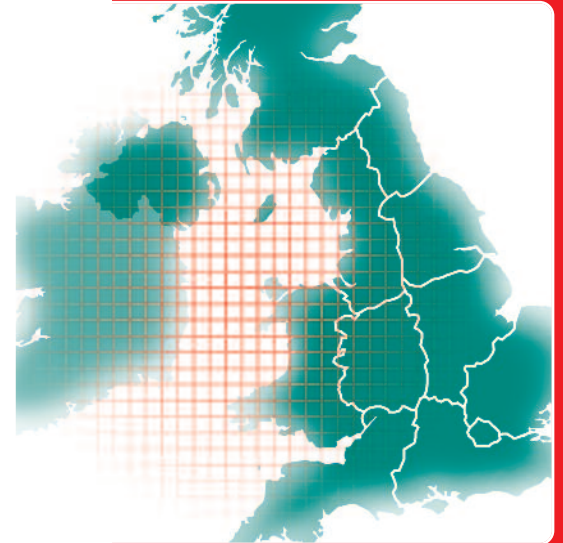

Let us tell you about land for sale now!

Barbour ABI are the leading provider of construction intelligence products, providing UK companies with sales leads, contact data, CRM software and market intelligence. Our reputation is built and maintained by our in-house team of market researchers who have excellent working relationships with planning authorities and other relevant information providers. This comprehensive approach means that we research and report on 100% of planning applications in the UK.

Building on our strong reputation of telling our customers about the 'who, what and where' of every UK construction project, we can now provide you with all the information you need to know specifically about **Sites to be Sold** across the UK.

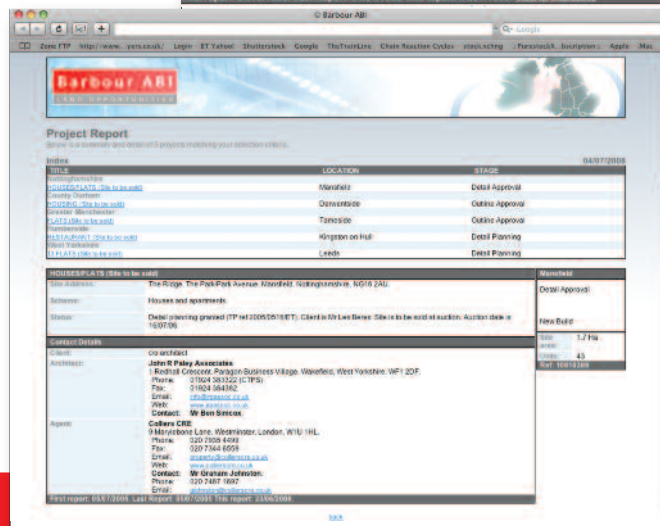

Sign up today and you will receive an email detailing all land opportunities we have identified within the last three months where we know that the existing owner of the site is looking to sell.

Each land opportunity includes key details including a description of the land for sale plus all relevant contact details (for example; client, architect, agent, planner), allowing you to approach just those sites of interest to you.

ROADS		Congestion
Site Address:	M6 Motorway, Junctions 16-19, Middlewich, Cheshire, CW10.	£220,000,000
Scheme:	Widening to four lane motorway standard of 23.5 miles of the M6 motorway between junction 16 (Crewe), and junction 20 (Warrington), passing to the east of Middlewich. Plans have been announced which involve the widening by the parallel widening method, whereby a complete new road is built alongside the existing carriageway, to avoid disruption. The scheme is to include extensive landscaping works such as mounds and tree planting, and all bridge structures are to be architecturally designed to blend in with the landscape. Foundations: concrete retaining walls. Site works: excavation, soft landscaping.	Detail Planning
Status:	This scheme is on hold. Scheme is under review to find a less intrusive method of widening the motorway between junctions 16-19. A public enquiry is still expected to be held. Junction 19-20 is now a separate scheme and is not expected to progress in the near future.	General contract
